

## HIGH FLOW OXYGEN GENERATOR Portable Wall Mounted Unit for Hospitals

→ **Upgrade your Oxygen Systems in a simple and efficient way**

→ **Additional Oxygen with Minimal added costs**

Wall O<sub>2</sub>, is a wall mounted Oxygen Generator for hospitals, which can produce Oxygen by using compressed air from your existing Manifold system with MINIMAL added costs. The wall mounted unit, once installed will take compressed air from your existing gas pipeline and produce medical grade Oxygen with high Purity.

### QUICK SOLUTION FOR OXYGEN REQUIREMENTS

- No more anxieties on how to buffer your Oxygen supply system
- No added burden of costs and infrastructure
- Flexibility of use as it is a portable/detachable wall unit
- Easy to handle, transport and store
- Also offers the flexibility to be scaled up for anticipated requirements in the future
- Lightweight, can be handled/installed easily by nurses/technicians
- INNOVATIVE DESIGN ensures low running costs and minimal maintenance

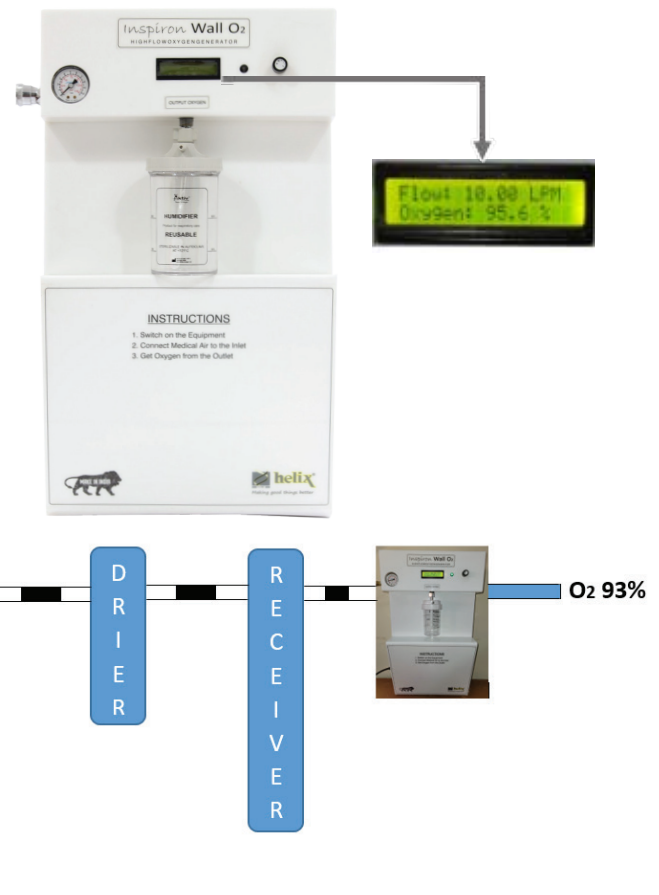

**MADE IN INDIA WITH PRIDE**

## SALIENT FEATURES

- Unique product that can produce Oxygen using Medical Air from pipeline
- Continuous supply of Oxygen with flows of up to 10 LPM
- Delivers Oxygen with a purity of 93% ± 3%
- Available with single outlet with 10 LPM & double outlet with 5 LPM on each outlet
- Quiet operation
- Portable
- Light weight and easy to carry
- Easy to use
- Flow and purity are displayed on the Display Module
- Displayed flow is the delivered flow
- Displayed purity is the delivered purity
- Very low Power consumption

## TECHNICAL SPECIFICATION

<b>Product weight</b>	8 kg	
<b>Product width</b>	340 mm	
<b>Product length/depth</b>	180 mm	
<b>Product height</b>	590 mm	
<b>Oxygen Flow</b>	5 LPM	10 LPM
<b>Purity</b>	93% ± 3%	93% ± 3%
<b>Output Pressure</b>	8 psi	
<b>Sound level</b>	<30 dBA	
<b>Electrical requirements</b>	220 - 240 Volts AC, 50 Hz	
<b>Power consumption</b>	7 Watts	
<b>Minimum Input Pressure</b>	35 psi	
<b>Low Oxygen purity alarm at</b>	<85 %
