

OXY PRO

Testing made Simple

OXYGEN CONCENTRATOR TESTER

- Designed to check the performance of any Oxygen Concentrator manufactured across the world for its O₂ purity and flow delivery
- No more waiting for professionals and service technicians to know how well your Oxygen Concentrator are functioning
- Just connect the outlet of your Oxygen Concentrator to the inlet of Oxy Pro and know the O₂ purity and flow

SALIENT FEATURES

- Oxy Pro is an hand-held compact Device
- Permanent Oxygen Sensor, non consumable
- Checks the performance of any Oxygen Concentrator in seconds (up to 10 LPM)
- Rechargeable built-in 9V battery with USB Type B port for easy recharging
- Push on button for back-light illumination for easy reading of parameters
- Auto calibration of sensor during every device power on
- LED colour indicator to know the charge status of built-in rechargeable battery

TECHNICAL SPECIFICATION

Flow Range	1 - 10 LPM, 0.1 LPM Resolution
Oxygen Concentration Range	21 - 95 %, 0.1% Resolution
Flow Accuracy	± 0.2 LPM @ (25 ± 2) °C
Concentration Accuracy	± 1.5 % FS @ (5 - 55) °C
Response Time	0.5 s
Warm-up Time	10 s
Operating Temperature	0 - 50 °C
Operating Humidity Range	5 - 85 % RH
Maximum Pressure	150 kPa
Power Supply (Built-in Battery)	9 V DC, 50 mA
Display Dimension	73.8 X 27.1 mm
Product Dimension	175 X 125 X 45 mm

Manufactured by:

ISO 13485:2016 Certified Organization
